

Stainless Steel, Welded Seal Shear Beam Load Cell

- Rated capacities of 1000 to 20,000 pounds
- Stainless steel, welded seal construction
- Trade certified for NTEP Class III L 10000 and III 5000 divisions and OIML R-60 3000 divisions
- Hostile or clean environment
- *Sensorgage*™ sealed to IP67 standards
- Factory Mutual System Approved for Classes I, II, III; Divisions 1 and 2; Groups A through G. Also, non-incendive ratings (No barriers!).

DESCRIPTION

Model 65083 provides the weighing industry with excellent protection necessary for today's hostile environments in an economical low profile range suitable for platform scale manufacture.

Its low profile and all welded sealing combined with high accuracy makes this load cell ideally suited for low profile platforms, pallet truck weighers, tanks and silos. The guide slots incorporated into the upper and lower mounting faces enable manufacturers to easily position the load cell.

Hermetically sealed against moisture, the construction of the model 65083 in combination with a polyurethane dual shielded cable, enables continuous operation in harsh environments while maintaining a high operating specification.

The two additional sense wires feed back the voltage reaching the load cell. Complete compensation of changes in lead resistance due to temperature change and/or cable extension, is achieved by feeding this voltage into the appropriate electronics.

FEATURES

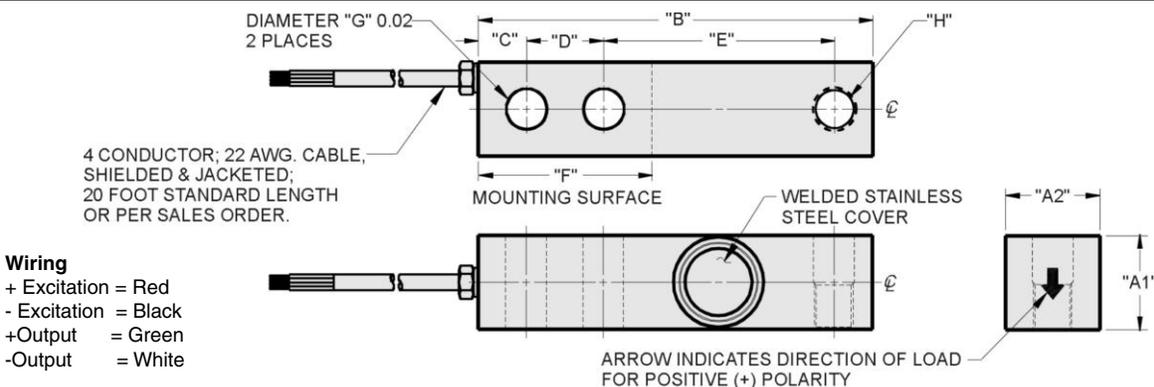

OPTIONAL FEATURES

- Companion weigh module available 65080 Stainless Steel *TantaMount*
- Integral conduit adaptor with teflon jacketed cable available

APPLICATIONS

- Hostile environments: Food & beverage processing
Chemical and plastics processing
Pharmaceutical and biomedical processing
- Tank, bin and hopper weighing
- Batching, blending and mixing systems
